

TECHNICAL DATA SHEET

Econo-Net

19mm, 38mm & 51mm

Product Description

Econo-Net is a medium duty fibre that offers good bonding, long term durability and improved toughness.

Applications

- House slabs
- Toppings
- Driveways
- Most general purpose concrete slab on ground applications.

Features

- Corrosion free
- Degradable bag
- Internationally proven performance
- 100% virgin homopolymer polypropylene
- Acid & Alkali resistant

Benefits

- Easy to use and finish
- Ability to tailor product to meet specific project requirements.
- Degradable bags means less handling and wastage
- Lower carbon footprint compared to steel.
- Saves the contractor time and money
- Improves site safety
- High durability.
- Control shrinkage cracking
- Reinforce concrete multi-directionally

Dimensions

- Length: 19mm, 38mm & 51mm on request
- Diameter: n/a
- Aspect ratio (l/d): n/a
- Quantity of fibres: n/a
- Shape: Fibrilated

Properties

- Tensile strength: 600MPa
- Young's Modulus: n/a
- Specific gravity: n/a

Compliance

100 Year
Design Life

Conforms to
ASTM C1116

Certificates

Packaging/Storage

- 0.9kg mulchable bags
- 20 x 0.9kg bags per box
- 12 boxes per pallet
